CLOVERPORT, KENTUCKY, WEDNESDAY, OCTOBER 12, 1898.

NO 13.

A VERY LARGE DAY.

The Big Court Draws a Crowd to the Capitol.

Harrisburg Fall of Jockey and Politician.

GRAND JURORS SELECTED.

The largest crowd that has been at Harrisburg for a year was there last Monday, the first day of Circuit Court. There are seventy-five new cases on the docket this term, and these, connected with the large criminal dockets, make a total of 125 cases. The trials will, it may continue for three weeks, the full time allotted to them. The litigants were there Monday from all sections, besides a large number who had no business in court, but were for a day at the county seat.

Jockey street had its usual quota of the horse swapping fraternity, and the local men were doing a brisk business in that line that must have been unusually active. The merchants in town were doing a fine business, which goes to indicate that times are improving, and that there is still a good deal of money in circulation.

There is no other town in the state that can muster up a larger crowd on the first day of a circuit court session.

There was a fair representative crowd, there being a good many men from almost every quarter of the state.

The news conversed with men from many portions of our country, and we find that the general opinion is that prevailing that has not been seen for some time. The farmers have all made pretty well, and the miners are doing well enough to get along. Beside having plenty at home, when you meet him away from home he has little money to spend.

At 11 o'clock the court adjourned at 11:30, and convened again and put the grand jury to work. The jury as made up is as follows:

E. T. Garfield, foreman, W. H. Cain,

Mr. S. J. Clark, M. Galloway, Bevin Taylor, Mr. C. C. McMillen, Mr. D. H. Hayes, Andrew Crawford, Horace Hunter, Frank W. Bachman, and A. L. Drewry.

At one o'clock Hon. W. J. Kyle, democratic candidate for Governor, spoke in the court house.

He addressed the audience and began his speech by a review of the tariff. He said we now had the poorest system of protection in the history of the country. He said the Republicans had started out twenty years ago to provide a system of protection, and they had done so well that they were still carrying the tax under the same old idea. He thought it was time they should change in methods, and that the best method was the "infant industry" tax on the wall. He said that the best taxation was at the expense of the consumers, and that the people who paid didn't care to feel the expense of the government, but that the people who worked for the government working in the interest of that class of people for twenty years had still done nothing. He said that the only thing that was sufficient to defray the legitimate expenses of the government was to tax the rich, and that the poor pay hellish rent that the tax should be levied upon the luxuries, and not upon the necessities, and some things as the food.

Mr. Stone referred to the speech with suspicion, saying that all patriotic work is to be done by the Republicans, and that the Republicans had not done it. But he argued that the soldiers who had fought in the war had been well treated and not treated as humans in many instances.

The speaker then took up the money question, and declared that for the first time in the history of the country he was able to take care of its financial affairs without the services of any other man. He said that the progress of the Democracy today, and as they descended in the platform of 1896 adopted at Chicago, was due to the efforts of W. J. Bryan brought forth great applause.

Mr. Stone was followed by Dr. McMillen, who had a very good speech in this direction. Mr. McMillen has not been long in politics, but in his speech he had a clear idea of what he wanted to say. He presented his plan quite formally, and seemed to be in the race to stay.

Mr. Bell's "Gospel Syrup" never disappoints a child or titillates the throat and lungs. It always unravels a remedy for the throat and lungs. It is made from the finest of the herbs and roots. Held by all druggists for 25 years.

cure known to the medical fraternity.
Catfish being a constitutional disease
requires a constitutional treatment.
Hail's Catfish Cure is taken internally,
acting directly upon the blood and mucous
parts of the system, thereby destroying
the foundation of the disease, giving
the patient strength by building
up the constitution and assisting nature

Diamond Dyes.

A small army woman has made many dresses
that are good for nothing else but decorations
of a house. She can make a new package of Diamond
Dyes, and thus get a pretty new dress for
a specialty for home use, and the simple directions
are so easy to follow that any woman can do
them with these dyes. It is but little more trouble to use
these dyes than to wash clothes.

You can color anything any color, with Diamond
Dyes, and the colors are very strong. A new
ribbon, can be made to look like new with
these dyes, and the colors are true, and give
them a rich, soft texture. You can also
have old red ones for cotton and wool, and on
these dyes, who still live, who still have
mixed goods.

Suffered 25 Years.

Kidney Difficulty. Entirely Cured by 8 Bottles.

RAL A. J. MERCHANT, O.D., PH.D.
Late Presiding Elder M. E. Church, Sharon, Pa
writes Dr. Fennex

"I suffered 25 years with kidney disease. Some 10 years ago I used 3 bottles of your Kidney and Backache Cure. I can truly say that since that time I have had less backache than I had in 10 minutes before I took the Cure. I feel entirely cured."

The Vision of God.

The pure heart must see the face of God.

From every darkness fills of eyes and souls,

The Holy Spirit's grace shall cleanse their mortal

And give them power to note events."

Jehovah—

A strong, majestic, glorious sound

With fire and smoke of glowing charon.

This vision shall begin—

They say, "We will surely come—they say,

And he who comes will be the King of Kings."

When they have passed the separating door of

death,

And gazed on the light-hued hills and vale's be-

yond,

So single pale edges glared, clear and sweet,

Or him who spoke with lips anointed from on

high.

BRECKENRIDGE NEWS.

WEDNESDAY, OCT. 12, 1898

After Long Urge And Pain.

When my heart emerged from the shadow
of death it presented a scene of wonder,
which like some terrible vapor, lay over
the earth.

I heard the burthen of grief and pain from me with a
loud voice, and stood, full face in the east and knew the
dawn.

Of course night had past, in which I was privy with
to the stars.

And wild doubts, languishing to keep unspent,
When my strength was tried by me many long
years.

Until on the wings of morning came victory and
rest.

I went to work and wrote the songs of awakened
birds.

Isle the mystery of my being, bore my livery
to the world.

To the cool winds, instead to the incandescent
winds.

Of science's preaching and then I knew that Life is

a dream.

As I gathered the down-burthen flowers
dripping in dew.

God gave me life, like the sun in the dawn
his JAS. F. FAIRLEIGH in Courier Journal.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Grifton, N.C.: "Was saved

with a bad cold which I had on my hands, feet and head and finally turned
ad to Consumption. Four Doctors gave

me up, saying I could live but a short time.

I gave myself up to my Savior, determined if I could not stay with my

friends on Earth, I would meet my
God.

My husband was advised to go to Shreveport, La., for consumption, constipation and colds.

I gave it a trial, took in all eight bottles.

It has cured me, and thank God I am

saved now e well and healthy woman."

Trinity bottles free at Shreveport and Haynes' drug store. Regular sizes \$6c and \$1.00. Guaranteed or money refunded.

Safety From Lightning.

The fear of lightning is almost universal,

but the number of deaths caused by it is small. Dwellers in cities are even safer than those in the country, since statistics show that the greater portion of the deaths from lightning occur in rural localities. The innumerable electric wires, the many grounded water pipes and the metal roofs of cities are undoubtedly the chief elements of their safety in this respect.

A CENTURY OF BANKING.

Some Interesting Facts About

The Currency.

Coinage Of Money And Production Of Precious Metals.

The banking, currency, cottage and production of precious metals in the United States during the past century are presented in great detail by a series of tables just issued by the Treasury Bureau of Statistics as a part of the July summary of commerce and finance.

These tables, covering more than 100 years, give the history of the value and present form of the currency of the United States during the past century, the growth of the banking system and of the currency, both metallic and paper, and to this is added for comparative purposes a brief statement of the banking and currency conditions and gold and silver production in other parts of the world.

The tables also give the history of the banking and currency history of the country brings to the surface some interesting facts. The earliest figures are those of 1774, which give the value of the currency at that date as \$4,000,000. The same statement puts the value of the currency in 1784 at \$10,000,000, and in 1790 at \$22,000,000, and a circulation of \$20,000,000.

By 1797 the number of banks had increased to twenty-five, the capital to \$19,200,000, the bank circulation to \$10,000,000, and the specie to \$14,000,000.

The story of the century 1797-1897 is told fully in the tables, the value of the banking system and of the currency, and the gold and silver production and coinage. The number of banks in 1797 was 25; in 1897, 9,457. The capital in 1797 was \$19,200,000, in 1897, \$1,027,853.

The bank circulation in 1797 was \$10,000,000, in 1897, \$1,000,000,000. The deposits reported in 1797 were obtainable, amounted to \$8,500,000; the individual deposits reported by the 9457 banks in 1897 amounted to \$5,193,755,907, of which \$1,069,370,635 were classed as savings deposits.

The amount of increase in the number of state banks prior to the war is shown to have been very rapid, the number in 1840 having 329; in 1840, 741; in 1850, 892; in 1860, 1,652. The decrease from 1860 was equally rapid, the number of state banks in 1863 being 1023; in 1854, 349, and in 1868, 244. The number of national banks, begun in 1863, 1864 and 1865 was 102, and increased in 1872 being 566; in 1885, 975; 1888, 1405; in 1889, 210; in 1894, 3556, and in 1897, the number, including private banks, reported at 3,773. Prior to 1860 the deposits in state banks amounted to but little more than \$100,000,000, but in 1867 they were \$1,000,000,000, and in 1897 were \$72,340,795, against a capital stock of \$22,677,098.

The statements regarding the amount of money in circulation in the United

States at various periods are equally interesting. The amount in circulation in 1800 is given at \$4,50 per capita; in 1810, \$7,00; in 1820, \$9,98; in 1830, \$9,69; in 1840, \$10,19; in 1850, \$12,62; in 1860, \$15,85; in 1870, \$17,50; in 1880, \$22,89; and in 1890, \$24,74.

The gold and silver production and coinage in the United States produced more gold the year 1807 than in any preceding year, except those of the great gold developments of 1852-54-5. The amount in 1807 is given at \$57,365,000, while that of 1852 was \$60,000,000.

That of 1854 was \$69,000,000. California is shown to have taken in 1897 first place in the rank of gold-producing states, her production in that year being \$101,500,000, followed by Colorado, \$81,500,000, and California, \$74,000,000.

The gold crop for the world this year is estimated at 2,607,000 bushels, the last year at 2,605,000.

SAVED OUR LIFE.

Do Not Neglect the Kidneys and Bladder.

Disorder of these important organs causes Bright's disease, rheumatism, heart, the back, dropsy and other troubles.

Disease sometimes gets hold upon your kidneys and bladder before you realize the early and serious nature of the trouble.

Other diseases are suggested until a fatality mainly. Bright's disease, has fastened upon you, and death awaits the victim.

Many miraculous cures have been wrought by a course of treatment with Dr. Davis' Kidney Tablets. These tablets are put in the shape of a diamond and are made of a composition of

minerals and herbs.

BRECKENRIDGE
WEDDING
OCT. 12, 1886
BRANDENBURG.

Lee Datto spent at home. Mrs. Goss Fontaine is at home and we are all glad to see her. Mr. and Mrs. John Swan is a pupil of Brandenburg Normal.

Mr. J. W. Lewis went to Louisville last Sunday.

First literary of the Normal came off Friday night.

Beall Grinnell and Joe Hendrick spent Sunday in Louisville.

Mrs. Ned Reese, of Reese, O., is visiting her parents, Mr. and Mrs. E. H. Ditto.

Mrs. Ella Hendrick attended the Owenton Fair, and will be home Saturday.

Mr. and Mrs. Theo. H. Ditto attended the Baptist church last Sunday and were guests of Mr. and Mrs. W. C. Moore.

Miss Ella Hendrick attended the Owenton Fair, and will be home Saturday.

I hear Stuart Orwigs will move his family here to be convenient to him in his business. We all hope he will.

I have a beautiful picture of my sweet little friends, Pauline and Lucy Ellin Dowden, of New York. I appreciate the picture very much.

Mrs. Ella Datto, of Long Branch, was quite sick last week. Mrs. Datto is an intense fanatical individual.

The "Santiago Campagna" by Gen. Wheeler is his own story of what he saw during the Spanish-American War.

The book is now on the press.

James Whitcomb Riley has written a patriotic poem about the American flag, which will be published without payment.

The present issue between China and Japan seems a reason for one to search up interesting accounts on the Celestial Empire. We are sure of Cuba, Porto Rico, Philippines, etc.

My Irvington friends are much elated over their college and its teachers, Prof. Creath and wife. Nothing so sure and solid as education.

We hope success may crown it.

Girls don't have ideal beauty.

They are only idealists, and their congenerality of taste, honor, business qualities and the like "for better or

for worse."

Pamplieck was in the press, he had great faith in it. He wrote many articles for newspapers. He was quasi-educated in law, and was a man of culture.

He was a man of birth and never strayed from the path of polite journalism.

It is wonderful to see how some individuals adapt themselves to the society of enigmatical minds and not show it. If they were the chrome age, I would say "I am a chrome age, I am a chrome age." I happen to know it.

Through the kindness of Mrs. Pigott who has, as is generally known, been quite ill since last we saw under the roof of our dear old home, we are still patient and we all hope he will soon be himself. His sermons were touching.

George Sand, the most gifted woman of the century, made one fatal mistake when she linked her destiny with Musset. She was a woman of great talents, much to purify French literature and the true thing she ever wrote was that "the one thing that can endure is the spirit of right and justice." Practice it and we are a Gilberte.

The classic literature at Brandenburg is well represented. Hawthorne's "Scarlet Letter" under discussion, than which nothing more highly agreeable to refined tastes. Mr. Richard Mansfield has a good imitation of a Nero. A Nero was made of the Salem story for which Walter Damrosch composed the music, and did not realize "Scarlet Letter." It is a gem.

Mrs. Frances Hodgson Burnett since her divorce wants to be known as Frances Hodgson. Her pen is as sharp as ever. She has a son the original Lord Fauntleroy, who will certainly retain his father's name. Fauntleroy is a good boy.

Richard Harding Davis has been severely criticized as a war correspondent but I am ready to tell you all to buy his books. They are interestingly written, the American cause. He is much too harsh on the English and clannish.

He is a good writer. His "Soldiers of Fortune" is a gem.

Frank Miller, who has been at home for nearly thirty years, is a forlorn, fat old fellow, who goes to camp, where he will resume his military duties.

Mr. Terry Gundis has sold his farm to Mr. and Mrs. George L. Moore, of Brandenburg, the first of November to become a citizen and businessman of this town.

Mrs. Sig. Louis went to Louisville last Saturday, and will return to camp, where she will attend the marriage of her brother, Mr. Elmer Carter. Both contrasting parties live at Vine Street.

The Hon. Dave Smith will speak Saturday, October 15, at one o'clock. The republican and popular candidates are invited to speak, and a division of time will be granted.

General App Shacklett and his brother Blant, from McLean County, are here to visit friends and relatives. Mr. Blant is a short, stocky, well built man, a well preserved man, seemingly over sixty-four or seventy years old.

George Shadley, who has been working for F. L. & Co., is out of the store now, and is spending in a small way on his own hook. George was a very good boy, and I hope he will do well every one and attended strictly to his own business.

Mr. John Williams of St. Louis Valley, took the train here last Saturday for Louisville, where she will attend the marriage of her brother, Dr. W. M. Moremen. Miss Mary Farmer of this county, Dr. Moremen was formerly from Meade county, and has been practising in Louisville the past year.

Invitations are out announcing the marriage of Miss A. Louise Oliver to Mr. Neilson, of Louisville. The wedding will be in Lexington, Ky.

Miss Chick is a daughter of the late James Ahrens of Ulrich, former of this county. She is a tall, slender girl, will take up residence in Louisville, where she will be in the best tailors can fit you.

Tell all about Mar. Troubles when
Baby Broke out with Scrofulous Sores.

"At the age of two months, my baby began to have severe outbreaks of his right shoulder. We tried all sorts of remedies, but could think of none, or, to no avail. The sores spread all over one side of his face. We consulted a physician and tried his remedies, and had the week before the first bout was over, the sores were well and have never returned. This is now four years old, and is a healthy, strong child. The sores since he was cured by Dr. H. Barasapilla, for which I feel very grateful.
